PROFILE SUMMARY

Java Developer with specializing in building scalable applications using **Java, Spring Boot, and Hibernate**. Skilled in **backend development**, performance optimization, and system architecture. Strong problem-solving abilities with a collaborative and detail-oriented approach. Looking to join a dynamic team to continue developing technical and personal skills.

- Proficient in **Java, Spring Boot, Hibernate, and RESTful APIs**.
- Strong **analytical and problem-solving skills** with a focus on clean coding practices.
- Good team player

PROJECTS

Hotel Management System

- Developed a responsive **React.js** frontend using **Hooks** (useState, useEffect), **Axios** for REST API integration, and **React Router DOM** (useNavigate) for smooth navigation and routing.
- Built a feature-rich **Hotel Management System** with **room listings & availability, user authentication, room booking, check-in/check-out, billing, and reservation management**.
- Designed and implemented **scalable RESTful APIs** following industry best practices, with a well-structured **Controller, Service, and DAO** layered architecture.
- Optimized database interactions using **JPA and Hibernate ORM**, efficiently managing entity relationships and ensuring data consistency across transactions.
- Improved database performance using **Hibernate ORM mappings, lazy loading, and indexing**, reducing **query execution time by 30%**.

Bank Administration System

- Developed a Bank Administration System **with functionalities like** customer management, transaction processing, **and** account balance tracking, **improving operational efficiency and customer service**.
- **Designed and implemented** scalable RESTful APIs **to ensure smooth integration with internal systems and third- party services, following industry best practices for maintainability and performance**.
- **Optimized** database access using JPA and Hibernate, **implementing a DAO Layer to streamline data interactions, ensuring data integrity and scalability across large datasets**.

EDUCATION

B. Tech | Computer Science & Engineering | CGPA: 7.7 (Equivalent: 73.15%)

CGC College of Engineering | Mohali, Punjab | **2020 - 2024**

Intermediate (CBSE) - British English School, Gaya | 2019 - 2020 | Percentage: 61.8%

Matriculation (CBSE) - Gurukul, Sherghati | 2017 - 2018 | Percentage: 76.4%

SKILLS

Language: — Java, C

Framework: — Spring Framework, Hibernate, Spring Boot, Spring Data JPA

Database: — Oracle SQL, MySQL, Database Management Software

Web Development: — HTML, CSS, JS, JSP, React.js

Tools & Technologies: — Git, Apache Tomcat, Spring Tool Suite, Eclipse IDE, Postman, Vs Code

CERTIFICATION

- **Java Programming Language Certification** - Infosys
- **Software Testing & Git/GitHub Training** - Internshala
- **Java Full Stack Training Certification** - Naresh i technologies
